Details (please complete as far as possible)	
<p>What type of support is the company looking for? e.g. collaborative research, commercial contract research, study design, advice.</p> <p>Please include details as appropriate on the type of study (pre-clinical study, clinical trial, efficiency study, health</p>	

* **Definitions:**

- **Collaborative research** – company working in close collaboration with clinical academics, with input into study design and scientific objectives of the study. This could be fully funded by commercial partner, third party funding (e.g. grant application) or a shared risk reward model.
- **Commercial contract research** – fully commercial funded and defined study protocol in place but need support in research centre selection and feasibility assessment.

economic evaluation) or type of advice sought (care pathways, methodological e.g. health economics or implementation, access to patients or users, access to research funding, market access, regulatory approval).	
Does the company have full funding available to support any research studies? (check the relevant box)	<input type="checkbox"/> Yes <input type="checkbox"/> No
For contract research studies, please provide a <u>one page</u> study synopsis and/or draft research protocol. This can be attached or entered on this form.	
For collaborative studies without full commercial funding, please provide details of any funding routes you have considered, e.g. venture capital, grant applications, charity funding, third party collaboration.	
For collaborative research, describe your company's approach to sharing Intellectual Property. Would the company be prepared to share IP?	
<p>For collaborative research opportunities, please provide a brief description of the following:</p> <ul style="list-style-type: none"> • Your potential therapy/technology; • The research questions you are looking to answer and timelines within which you need to deliver the research; • The support you are looking for from the MindTech to address these questions. 	
What are the potential benefits to the UK (patient, NHS, academic, economic) of your potential therapy/technology? What are the potential scientific benefits for clinical academic researchers working with your company and potential therapy/technology?	
Please specify any assessment (or submission for assessment) of the innovation for its need/feasibility/acceptability in the UK or elsewhere. Include any clinical, economic and usability evaluations.	
Please specify prior engagement with any patient/service-user groups, clinicians, NHS Trusts or other health and social care organisations.	
Please provide any other supporting non-confidential data that you would be happy for MindTech to share with clinical academics and user groups. This can be attached or entered on this form.	

Thank you for filling in this form, please send it to us and we will be in contact with you soon.
